

18th Biotechnology Congress. New York, USA. October 19-20, 2017

Conferenceseries invites the contributors across the globe to participate in the premier "18th Biotechnology Congress" (BioAmerica-2017), to discuss the on theme: "Novel Insights and Innovations in Biotechnology for Leading a Better Life".

18th Biotechnology Congress

October 19-20, 2017 New York, USA

It covers advancing knowledge and latest techniques in fields of biomedicine, crop improvement,

polymer biotechnology, synthetic biology, novel enzymes, food ingredients, renewable chemicals, environmental protection/remediation, biofuels, biopharmaceuticals and biopesticide production. Which leads to scientific knowledge sharing and experience in all areas of biotechnology and related scientific fields. It will also strengthen and expand the human network of all involved in this field globally. Provide opportunities for young researchers for their professional development. Owing to this conference one can identify knowledge gaps that need to be filled and this event provide a forum for scientific exchanges on recent advances in biotech research.

We believe these objectives can be achieved through disseminating workshops, symposiums and open discussion forums happening at our Bio America 2017 Conference.
