

9th World Biomarkers Congress. Madrid, Spain. December 07-08, 2017

World Biomarkers 2017 is organized around the theme: **“A New Era of Diagnosis and Clinical Research”**.

World biomarkers, in the hands of clinical investigators, provide a dynamic and powerful approach to understanding the spectrum of diseases with obvious applications in analytic epidemiology, biomarkers and clinical research in disease prevention, diagnosis, and disease management. World biomarkers have the additional potential to identify individuals susceptible to disease. There is a good scope to know more in this molecular biomarkers meeting. In the recent years, the information about cancer biomarkers has increased largely providing great scope for improving the management of cancer patients by improving the accuracy of detection and efficacy of treatment. Latest technological advancement has enabled the examination of many possible biomarkers and renewed interest in developing new biomarkers. All such developments can be evidenced in this world biomarker conference.

Why to attend World Biomarker 2017?

With members from around the world focused on learning about molecular and cancer biomarkers, and its advances; this is your best opportunity to reach the largest assemblage of participants from the biomarker community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new drug developments, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in molecular and cancer biomarkers are hallmarks of this conference.

Conference Highlights

Biomarkers

Cancer Biomarkers

Clinical Biomarkers

Biomarkers and Cancers

Biomarkers and Non-Cancerous Diseases
Biomarkers and Radiology
Cell Free Biomarkers
Predictive Cancer Biomarkers
Biomarkers Detection & Discovery
Biomarkers & Immune-Oncology
Biomarkers: Validation and Verification
Advances of Biomarker Testing
Biomarkers and Personalized Medicine
Companion Diagnostics
Biomarkers and Pharmacology
Oncologists
Cancer Bioinformatics & Biomarkers
Biomarkers Imaging and Dynamics
Entrepreneurs Investment Meet

Target Audience:

Oncologists
Radiologists
Pathologist
Haematologist
Immunologist
Clinical Researchers
Nurses
Cancer Researchers
Scientists
Young research
Student
Biomarker Associations and Societies
Business Entrepreneurs
Training Institutes
Software developing companies
Manufacturing Medical Devices Companies
Data Management Companies
Pharmaceutical Companies
Diagnostics Companies
