

Annual Congress on Cell Science, Stem Cell Research & Regenerative Medicine. Atlanta, USA. November 29-30, 2017

Allied Academies cordially invites all the participants across the globe to attend "Annual Congress on Cell Science, Stem Cell Research & Regenerative Medicine 2017" during November 29-30, 2017 Atlanta, USA which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues.

About Conference

Cell Science 2017 offers a unique window and opportunities to present and evidence the latest updates with a holistic approach to different areas of interest. We have done our utmost to get rid of the traditional approach in the elaboration of the program and most importantly, during the active sessions, in order to foster innovation and scientific curiosity. Our intention is, to create platforms which will gather eminent scientists, medical professionals who will undoubtedly enrich the conference.

Student Poster Competition is organized at Conference, to encourage students and recent graduates to present their original research which will be later published in the Allied Academic Journals. All accepted abstracts will be presented at the poster sessions during the conference.

Business networking is an avenue for vendors to have network and B2B meetings with "Top scientists and colleagues" and with an effective low cost marketing method for developing sales and opportunities and contacts, based on referrals and introductions either face-to-face at meetings and gatherings or by other contact methods such as Telephone, E mail, Digital and Increasingly social and business networking websites.

Call For Papers:

Important Dates

Submission Deadline: November 29, 2017

Authors Notification: November 29, 2017

Registration & Ready Paper Due: October 23, 2017

Early Bird Registrations Due: May 22, 2017

Conference Highlights /Tracks:-

Cellular Physiology and Structural Biology
Cell Biology of Vertebrates, Microbes and Parasites
Current Research in Cell & Molecular Biology
Nanotechnology : Stem Cells & Cancer
Stem Cells, Self-Assembly, Tissue Growth and Regeneration
Germ line Stem Cells
Cellular And Molecular Medicine
Computational Biology and Drug Designing
Cell Signaling Technology
Cell Rejuvenation and Wound Healing
Stem Cell Therapeutics in Modern era
Genetics & Genomic Medicine
Clinical Applications of Stem Cells
Cancer Cell Biology
Tissue Engineering
Cancer Gene Therapy
Bioethical Issues in Cell and Stem Cell Biology
