

The 5th Annual Medical Devices 3P Forum in Berlin, June 8-9, 2017

The world's only conference tailor-made for project, product and portfolio managers in Medical Devices industry will take place in Berlin on June 8-9.

The Medical Devices 3P Forum is one of the most informal, open-minded platforms organized by EBCG and the event is truly created with love and passion.

More than 100 attendees and speakers from companies such as **Medtronic, Fresenius Medical Care, Orthofix, GN ReSound, Boston Scientific** and many more will share their experiences and professional insights on product lifecycle, leadership, team management, regulatory threats on PPM and innovation oriented decision making.

What to expect

Two conferences in one: complex topic coverage with sessions perfectly aligned - you can build your own program!

40+ speakers from all kinds and sizes of companies

Formats for everyone: presentations, case studies, campfire sessions, polylogues with our speakers and workshops

No ties and all smiles: We are all about feeling comfortable and we believe in a good balance of fun and knowledge!

“You” time: If you want to be heard, you will be. Our event allows as much time for discussions as for presentations.
