

## **9th International Conference on Smart Materials and Structures. Zurich, Switzerland. June 22-23, 2020**

**Theme:** *Unveiling the Advancements in Material Science and Engineering*

It takes pleasure in inviting the scientific community across the globe to attend the 9th International Conference on Smart Materials and Structures during June 22-23, 2020 at Zurich, Switzerland with a motto to Explore Innovations in Smart Materials and Structures.

The gathering will address sustainable developments in the area of Smart Materials, Material Science, while laying emphasis on innovative methodologies in this modern era. Smart Materials Congress 2020 will be the best venue for academicians, researchers and interested parties to discuss proposals and advancements in their research field.

**SMART MATERIALS CONGRESS 2020**

**9<sup>th</sup> International Conference on  
SMART MATERIALS AND  
STRUCTURES**

**June 22-23, 2020 | Zurich, Switzerland**

**Theme: Unveiling the Advancements in  
Material Science and Engineering**

<https://smartmaterialscongress.euroscicon.com/>

Smart Materials Congress will encourage Young Researcher's Forum, scientists and the researchers in their early stage of career graph to widely discuss their outcome so as to enrich and develop the idea. The 'Best Poster Award' is meant to encourage students in taking active part in the International Science platform to sharpen their skills and knowledgebase.

The important tracks that are part of Smart Materials 2020 includes Smart Materials and Technology, Smart Structures, Material Science and Engineering, Architecture and Civil Engineering, Nano-materials and Nanotechnology, Smart Control Systems, Shape Memory Alloys & Shape Memory Polymers, Optical and Electronic Materials, Magnetism and Magnetic Materials, Materials Processing and Manufacturing, Sensors, Transducers & Actuators, Smart Textiles and Wearable Technology, Materials Physics, Materials Chemistry, Integration of Smart Power & Renewable Energy Systems, Biomaterials, Emerging Materials, Advanced Structural Materials, Ceramics and Composite Materials, Applications of Smart Materials.
