

## Biomarker Europe Summit 2016

**Organizer:** GTCbio

**Start date:** October 5<sup>th</sup>, 2016 **End date:** October 7<sup>th</sup>, 2016

GTCbio would like to invite you to attend our **Biomarker Summit Europe 2016** on **October 5-7, 2016** in **Berlin, Germany!**

The summit will address the latest developments in the biomarker arena from discovery to translation to commercialization. Presentations span across multiple disciplines and cover topics such as discovery and validation strategies, the challenges of clinical translation, novel technologies including next-generation sequencing, companion diagnostics, the health economics value of biomarkers, reimbursement environment, and perspective on cell free biomarkers for disease diagnostics. Scientific data, case studies and discussions will be facilitated by key representatives from pharma, biotech, academia and the public sector.

**Biomarker Summit Europe 2016** consists of four conferences including joint sessions:

**Conference:** [10th Biomarkers in Drug Discovery & Development](#)

**Conference:** [5th Biomarkers in Diagnostics](#)

**Conference:** [Biomarkers in Clinical Development & Clinical Trials](#)

**Conference:** [Cell-Free Biomarkers](#)

[10th Biomarkers in Drug Discovery & Development](#)

- I. Biomarker Discovery & Identification Strategies
- II. Biomarkers from Qualification to Validation
- III. Biomarkers of Translational Medicine: Safety, PK/PD, & Efficacy
- IV. Biomarkers in Personalized Medicine
- V. Big Data Analytics for Biomarkers Development

[5th Biomarkers in Diagnostics](#)

- I. Novel Diagnostic Technologies
- II. New Diagnostic Biomarkers & Their Development

- III. **Joint Session:** Clinical Utility of Diagnostic & Screening Biomarkers
- IV. **Joint Session:** Companion Diagnostics Development & Commercialization
- V. **Joint Session:** Health Economics Value of Biomarkers & Reimbursement Environment
- VI. **Joint Session:** Regulatory Considerations in Clinical Dx

#### Biomarkers in Clinical Development & Clinical Trials

- I. **Joint Session:** Clinical Utility of Diagnostic & Screening Biomarkers
- II. **Joint Session:** Companion Diagnostics Development & Commercialization
- III. **Joint Session:** Health Economics Value of Biomarkers & Reimbursement Environment
- IV. **Joint Session:** Regulatory Considerations in Clinical Dx
- V. Clinical Trials & Developments
- VI. Biomarkers & Surrogate Endpoints for Clinical Trials

#### Cell-Free Biomarkers

- I. Circulating Biomarkers Overview
- II. Cell-free DNA & RNA Technologies & Their Platforms
- III. Clinical Applications of Cell-Free DNA & RNA in Disease Diagnosis & Management
- IV. New Developments in Cell-Free Biomarkers
- V. Exosomes in Diagnosis, Treatment, & Disease Management
